

Paperbased Dual-ovenable Trays

Key Features:

- Biodegradable: paper based package
- Sanitary presentation: tamper evident seal
- Freezer to oven: filled meal package functions from -40°; to 400°; F
- Reheating of sealed trays, up to 180°; F Polyester film lining provides a liquid barrier
- Sealed compartments, no more cross contamination
- Easy to open, proprietary film; easy to peel yet strong enough for the rigors of delivery
- Heat retention: clients receive hotter meals

Environmental Sustainability

- Speedseal trays are made from a 100% renewable resource
- Speedseal trays are manufactured using eco-friendly tree fibers, plant fibers and are compostable*
- Speedseal trays are made in the USA, reducing carbon footprint for shipping
- Seniors and agency staff will appreciate your food service program's commitment to the environment

**Except for the tray liner*
