

## Problem

Equipment service and repairs can cause interruptions to your bakery operations. Preventative maintenance requires someone's time and focus. Time and resources need to be focused on baking a quality product, merchandising and customer service. But just like a car that needs regular oil changes, your Oliver bread slicer needs regular blade changes. But who has time to think about that?

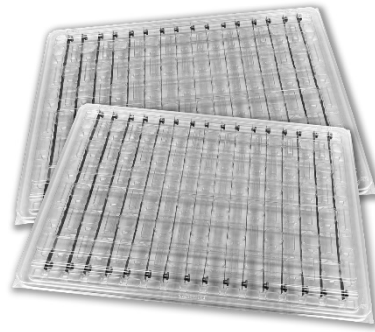

## Solution

Let us do it for you! Our new Blade Replacement Program for bread and bagel/bun slicers is created to be your preventative maintenance partner.

While you are focused on making amazing bread products and serving your customers, Oliver will track your blades replacement schedule and even set up service for you.

Depending on the program chosen and age of your machine you may be eligible for extended warranty and increasing discounts on blades and other spare parts.

Why wait? Enroll in the program today!

## Blade Cartridge Replacement Program

### Small Investment – Big Return

#### Regular blade changes

- Improved slicing time
- Maximum slicing performance
- Reduced wear on more expensive parts like the motor

#### Choose from three program options.

Enjoy exclusive member only discounted pricing for blades at the Pro and Elite Service levels!

Open end supply of blade change every 6 months (min 24 months)  
30% discount on parts  
1 year extra warranty on eligible equipment

Elite Service

18 months service (3 blade changes) 15% discount on parts

Pro Service

1 blade change Coupon for 20% off next blade order

Entry Service

**The Oliver extra value includes concierge service for blade installation available with all three service options.**
