

# OLIVER™

Serving What Matters

## Problem

Equipment service and repairs can cause interruptions to your bakery operations. Preventative maintenance requires someone's time and focus. Time and resources need to be focused on baking a quality product, merchandising and customer service. But just like a car that needs regular oil changes, your Oliver bread slicer needs regular blade changes. But who has time to think about that?

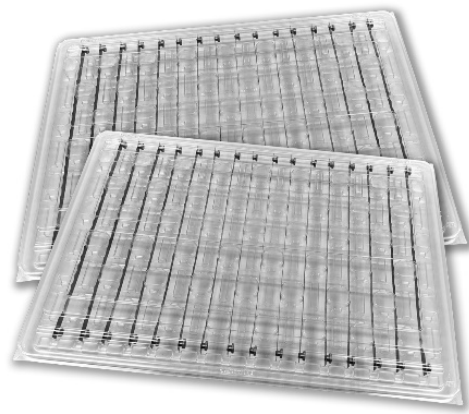

## Solution

Let us do it for you! Our new Blade Replacement Program for bread and bagel/bun slicers is created to be your preventative maintenance partner.

While you are focused on making amazing bread products and serving your customers, Oliver will track your blades replacement schedule and even set up service for you.

Depending on the program chosen and age of your machine you may be eligible for extended warranty and increasing discounts on blades and other spare parts.

Why wait? Enroll in the program today!

## Blade Cartridge Replacement Program

### Small Investment – Big Return

Regular blade changes will result in

- Improved slicing time
- Maximum slicing performance
- Reduced wear on more expensive parts like the motor

Enjoy exclusive member-only blade prices and additional savings on parts.

Choose from two options:

### Elite Service

Open-end supply of blade change every 6 months (minimum 24 months)  
30% discount on parts 1-year extra warranty on eligible equipment

### Pro Service

18 months service (3 blade changes)  
15% discount on parts

The Oliver extra value includes concierge service for blade installation available with both service options.

### What's next?
