

The Challenge

Having consistent performances regardless of the operator and value chain is crucial to guarantee package integrity, optimize operational costs, and secure an impeccable consumer experience.

Our Solution

Oliver's Speedseal® Packaging Systems serve up labor savings, portion control, mess-free portability, and merchandising opportunities.

Speedseal® MX 2 Model 1908 Packaging System

Our MX 2 Model 1908 heat seal machine is ideal for meal programs producing 500 or more packages a day. Compact (less than seven feet in length) and easy roll locking casters offer processing and space efficiencies. The MX 2 1908 seals up to 27 trays a minute; that's about 1,600 an hour! In addition, the Intermittent motion sealing technology combines the ideal temperature and perfect pressure for solid and secure seals on every package.

Available through our equipment lease program*, standard sale terms, or financing.

The Oliver extra value includes

- Repairs and maintenance of your leased equipment
- 24/7 parts and service support team ready to take your call and keep your program running smoothly
- Dedicated account manager for exceptional service
