

The Challenge

Simplicity of operation, space for production, package integrity, optimization of operational efficiencies, and costs all factor into a well-planned and profitable mobile meal program. And then there's the demand for a quality consumer experience.

Our Solution

With over 40 years of food processing system experience, Oliver's Speedseal® Packaging Systems are designed and manufactured for simplicity of use while driving efficiencies in processing time.

The Oliver legacy of dependability and long-lasting quality is at the core of every model built in our Michigan factory

Complete and Efficient Meal Packaging Systems

Our meal packaging systems offer reliable and easy-to-use combinations of tray sealers, trays, and lidding films. Working with you to learn your meal program goals, together we will help you select the best equipment option and perfectly matched trays and film lidding. In addition, our installation and training service option will get you up and running confidently and quickly.

With over 5,000 systems in use every day in North America, the UK, and Australia, you can rely on and trust Oliver with your meal packaging needs.

The Oliver extra value includes

- Repairs and maintenance of your leased equipment
- 24/7 parts and service support team ready to take your call and keep your program running smoothly
- Dedicated account manager for exceptional service
