

## Electric Lava Pack

- Preheats in approximately fifteen minutes
- Power up to five on a single 20 AMP breaker
- Remains hot for up to two hours after unplugging
- Use instructions conveniently located on the element

### Read instructions before using.

1. Place the Lava Pack in bottom of delivery bag, pulling the cord up and over the outside of the bag.
2. Close the bag and plug the Lava Pack into a wall outlet.
3. Allow to preheat for 15-18 minutes.
4. Open the delivery bag and carefully load hot meals on top of element. Caution: The Lava Pack can become hot to the touch; be mindful while placing meals into the bag.
5. After loading all meals into the delivery bag, securely close the bag.
6. Disconnect the Lava Pack, bundle the electrical cord, and secure it with a twist tie or alternative method to prevent the cord from dangling when transporting full delivery bags.
