

## Features

- Dual-ovenable
- Operating range: -40° to 400° F
- Blast freeze, chill or refrigerate
- Tray design reduces the occurrence of “hinging”
- Standard: 1.5” or Deep: 1.875” designs in 1, 2, and 3 compartment options

## Benefits

- Tamper evident seal protects contents
- Fiber insulates: meals stay hot, and the tray is safe to touch
- Fiber remains stable when frozen and when heated
- Individually sealed compartments keep food separated

## Sustainability

- Compostable in industrial facility\*
- Made from rapidly renewable natural sugarcane and bamboo fibers
- Meets ASTM D6400 and D6868 industrial compost standards

*\*Compostable in Industrial composting facilities, which may or may not exist in your community. Consult your local waste management service. Not suitable for backyard composting.*

# Compostable Fiber Trays

	Item Number	Description	Dimensions	Case Pack
	62120TPL	1-Compartment 28.75 oz.	8.7 x 6.6 x 1.5"	800
